SB 5451 - Relating to actions for crimes of violence motivated by gender (SUPPORT) - This bill would codify into Washington State Law the ability for individuals to sue in civil court for gender-motivated violence. This bill was requested by the Attorney General's office due to the US Supreme Court decision on May 15, 2000 in *Brzonkala v. Morrison* which overturned the civil remedies part of the Federal Violence Against Women Act citing that the US Congress overstepped its bounds in regards to allowing the civil remedy. The US Supreme Court ruled that this was a State's rights issue and that it was a state's responsibility to determine if victims could sue their attackers in a state's court for damages. This bill is scheduled for a public hearing on Monday, February 5th at 10 AM in the Judiciary Committee. Call your Senator to support SB 5451.

Health Care

Assure equal access to quality affordable and accessible health care services for women and children.

1. Contraceptive coverage needs to be easily accessible to everyone in the state. Washington State NOW believes that any health care plan that covers prescription drugs must include contraceptive coverage as a part of that coverage.
2. WA State NOW supports access for all women to the full range of reproductive services. WA State NOW will defend a woman's right to choose, opposing any attempts to weaken the current law as passed by Initiative 120.

SB 5416 – Relating to drug affected infants. (SUPPORT WITH MODIFICATIONS) This bill has been heard in the Senate Human Services Committee. This bill sets up procedures for identifying and screening pregnant and lactating women to determine whether an infant is at risk of drug affected due to the mother's use of non-prescriptive addictive drugs. Mothers of drug affected infants can agree to treatment which as a condition that can defer a dependency action. The conditions vary depending on the number of drug-affected infants the mother has had. Mothers must also be offered family planning services. Providers (both individuals and agencies) may choose not to provide family planning services. Imposing barriers to contraception thwarts the very purpose of the family planning services proposed in this bill. Call your Senator and request the committee the remove of this clause of the bill.

Washington State NOW supports efforts to end violence against women and their families in the areas of sexual assault and domestic violence

1. Modify WA State’s unemployment compensation laws to allow claimant’s to qualify for unemployment by adding a clause to the statute that would allow the individual to receive unemployment when they leave work due to domestic violence, sexual assault, or stalking.
2. Support modification to the Domestic Violence and Stalking laws as they apply to Protection and Anti-Harassment orders to:
 - a) Add a “bubble standard” which would require the stalker or assailant to be no closer than a specified number of feet to the victim.
 - b) Close the gap to expand the coverage of Protection Orders on released prisoners so that the release orders and protection orders do not override and therefore vacate the protection order.

4. Pass legislation that provides privileged communication between domestic violence victim advocates and victims similar to what is already in the statute for sexual assault victims.
5. Support use of surplus Welfare Reform funds to provide services for children who are in or have been in domestic violence situations and need help.
6. Support the Sexual Assault programs request for state funding to support community sexual assault programs so to provide legal advocacy and therapeutic services for sexual assault victims and to fund a statewide hotline for sexual assault victims.

SB 5029 Relating to nonparental visitation rights. This bill was heard in the Senate Judiciary committee on January 16, 2001. It is now ready for an executive session. SB 5029 allows non-parents to petition the courts for visitation rights with a child. The bill should require the individual seeking visitation to show that a relationship exists between them and child, and that denial of visitation would cause harm to the child. We shouldn't interfere in the parental decisions unless there is potential harm to child without intervention. Call your Senator and tell them you support SB 5029 with modifications. Request that the committee substitute the language that is in HB 1054 for the language in SB 5029. Committee will move out if it is amended.

SB 5232 Relating to the eligibility of individuals for public employees' benefits board insurance benefits (OPPOSE) If passed, this bill would put a referendum on the November 2001 ballot to reverse the December 2000 Public Employee's Benefit Board decision to extend benefits to the domestic partners of state employees. The bill also declares an intent that eligibility for these benefits is limited to the lawful spouse and dependent children of state employees only. This bill was written as a referendum because the sponsors know the Governor Locke would veto it. Call your senator to oppose SB 5232.
